**Testing of equipment for substation commissioning**

This letter serve to advice that Sisandza technology Services has been doing testing and commissioning of electrical equipment ranging from Transformers, CTs, VTs, 11KV switchgear, earthmat installation and protection equipment with associated cables from February 2013 to date.

Lufhereng 132/11KV Substation- Transformers, CTs, VTs, isolators and 11KV board  
Nirvana 88/11KV substation- Transformers, compact switchgear, CTs, MV board and  
Cables

Wemmer 11KV feeder board, MV board and cables

Tshepisoong 22KV switching substation- MV board and protection

Khanyisa substation,- MV board, protection and cables

Roosevelt Park Emergency work : transformer, temporary switchgear and protection

All the above work has been executed and completed as per F&J Electrical schedule and they came up highly recommended for the service provided.

Yours Faithfully

Mr. Ludie Toerien  
Chief Operation Officer
